GERKO DIAMOND CLEARCOAT

ABOUT THIS PRODUCT

Clearcoat in Medium Solid system which is characterized by good hardness and resistance to UV rays. Resistant to troublesome weather conditions. It has very good resistance to stone impact, coating does not chip off even with strong strokes of stones. Durability and excellent gloss gives the coating the “colour depth” effect and guarantees its high quality. Is compatible with all solvent basecoats including water basecoats. Occurs with hardener in standard or rapid version.
